### BIG MEN AND LITTLE TOWNS.

Chicago Inter Ocean.—Every American President has had from 3 to 32 towns named for him. There are 90 cities and towns named after Alexander Hamilton, 80 Clintons, 24 Websters, 20 Bents, 18 Calhouns, 7 Clays, 19 Quincy, 21 Douglasses, 30 Blaines.

### A WORD TO THE SENATE.

St. Louis Republic.—Mr. Cleveland's advice is not always good in currency matters, but his hope that whatever is done may be done quickly is echoed from every state. Filling up and unnecessary speechmaking will only hurt the cause in whose behalf they are employed.

### THE KIDNAPERS ARE BRIGHTENING.

St. Louis Globe Democrat.—All over the country the banks are beginning to show a disposition to afford a little more aid to business men than they have recently given. The banks are entirely safe in taking this step. They are stronger now than they have been for two months past, and they are consulting their own interest as well as that of the community tributary to them in lending money freely on safe security.

### THE DOCTOR'S LAMENT.

Standard Journal.—'Help! Help! The heat of July, the cold and storms of January come and go, yet medical accounts are due, past due, unpaid, care worn, mildewed, moist, eaten, ragged, and doctors, basing on the ragged edge of despair. You can plead limitation on the merchant, but you can't get to Heaven if you don't pay the doctor. Pay what you owe; it is right; the Lord loves a creature who pays his debts—so do the Portenians. He has ceased to be a virtuous these hard times. Stay at home and work harder, live plainer and dress less. Then it will not be hard to pay the doctors their just earnings. Yours Truly, Dr. Patience. Mercy, Forbearance, Hardiness, Fearful Anguish, Pliny, Sorrow.'

### THE VOTE ON THE BLIND BILL.

New York Press.—The figures of the vote in the House of Representatives on the proposition to revive the Blind Bill are highly significant. Every argument which Administration organs have been urging against the Sherman Law applies with double force to the Blind Act. Yet 112 Democrats voted to revive this objectionable measure, and only 105 voted against it. On the other hand, 110 Republican votes were registered against the Blind Bill, and only 15 Republicans voted for it. The dangerous financial tendencies of the Democratic party are strikingly illustrated in this showing. All the power of public opinion and all the influence of the Administration could not prevent a majority of the Democrats in the House from voting for unsound currency. The Republicans, voting for unsound money and the National welfare, saved the Administration from humiliating defeat on this most important issue and once more protected the country's interests from Democratic folly and demagoguery.

### ONE DOLLAR FOR ALL.

Commercial Gazette.—There has been a great amount of discussion on the silver question, but no figures have so far been presented showing the average cost of producing the white metal. It is well understood that all mines are not equal; that it may cost much more per ounce or ton to extract silver from ores in one mine than in another. This is true of all mining industries, but the level of the market is not to be reached through the books of inferior mines. This is an outcome that must be regulated by the laws of supply and demand, and it is not wise to adopt arbitrary laws for the purchase of silver by the Government at prices that would secure a large profit to one class of mines while barely covering the cost of production in others. Neither would it be wise to force prices by allowing sixty cents worth of silver into a dollar, and standing that as a legal tender by the Government. Silver miners should take their chances with all other producers, and whether gold, silver or paper, should be equal in value of every other dollar. This is the standard which must be maintained in a legal tender by the Government. Silver miners should take their chances with all other producers, and whether gold, silver or paper, should be equal in value of every other dollar. This is the standard which must be maintained in a legal tender by the Government.
